TEACHING EXPERIENCE

General Education Teacher
Shaftsbury Elementary School

August 2018 - Present
Shaftsbury, VT

- Instructed students with various learning styles and abilities in a rural school district.
- Developed and implemented student-centered lessons in all content areas using creative teaching strategies to engage all students in active learning.
- Modified all lessons to meet the individual needs of my students, which included students who received Title 1 services, with Individualized Education Programs, and with Personalized Learning Plans.
- Planned for short and long term educational curriculum.
- Collaborate with my colleagues about the best practices for instruction and how to differentiate learning for certain students.
- Support the social emotional learning of my students.

Paraprofessional - Kindergarten
Shaftsbury Elementary School

November 2013 - August 2018
Shaftsbury, VT

- Teach math, reading, writing, and science in small groups.
- Help build life skills.
- Help build social skills.
- Communicate with my teaching partner about teaching strategies and how to differentiate learning for certain students.

Student Teacher
Pocasset Elementary School

Spring 2011
Tiverton, RI

- Instructed 26 third-grade students with various learning styles and abilities in a co-taught classroom in an urban school district.
- Developed and implemented student-centered lessons in all content areas using creative teaching strategies to engage all students in active learning.
- Modified all lessons to meet the individual needs of my students, which included students who received Title 1 services, with Individualized Education Programs, and with Personalized Learning Plans.
- Planned for short and long term educational curriculum.

Practicum
Pocasset Elementary School

Winter 2011
Tiverton, RI

- Acquired knowledge and hands-on experience teaching 26 third-grade students in a co-taught classroom in an urban school district.
- Taught small group lessons in all subject areas.
- Developed and implemented 3 whole group math lessons.
- Conducted a case study on a student with an Individualized Education Program.
